

August 24, 2020

Dear Parents and Guardians,

I would like to welcome everyone to the new school year!!!!

Things have certainly changed, and this will be a year like no other. Taking student and staff temperatures before they enter the building, some students in the classroom and some students learning remotely, have challenged us to be more flexible than ever before.

I want you to know the decision to re-open the school buildings were not taken lightly. At the end of the day, offering the best learning environment for our students was the most important factor. Parents will be able to select which setting works best for their situation. Each quarter you will be given the opportunity to review how things are working and make a change, if needed.

We have worked hard to build in every precaution to ensure student and staff safety. We apologize for any inconveniences the new procedures may cause but we must work hard to keep safety first.

Once again, for this to be successful we must trust each other. If your child has a fever or showing any symptoms on the daily home screening check list, please keep your child home. Staff will be required to complete a temperature check and complete a health check list each morning before they report to work, as well.

Working together we can make this a great school year, one to remember!!!!!!!!!!

Welcome Back!!!!

Paul
