High School Picture Day

**Friday, October 31**

Halloween & end of first  
grading period

## CHAMPIONS DAY AT CANFIELD HIGH SCHOOL

Our seniors had a great time at Champions Day, hosted by Canfield High School on September 18. They were invited to join this annual event and took part in a variety of sports activities run by Cardinals athletes and coaches, including golf, football, soccer, cheerleading, tennis, and volleyball.

Each station was designed to be inclusive so everyone could join in, try something new, and enjoy the experience. More than just sports, the day was about connection—meeting student-athletes, learning new skills, and having fun together. Canfield High School also provided lunch for all participants.

We're thankful to the Canfield Cardinals for their kindness and hospitality. Champions Day gave our seniors a fun, uplifting experience that reminded them they have a community behind them.

## MILL CREEK PARK SCARECROW

With a playful, creative touch, Room 109 crafted the Potential Development scarecrow for Mill Creek Park's Pumpkin Walk at Twilight—Sunday, October 12, 2025, 4–8 PM at Fellows Riverside Gardens. Don't miss it: October 1–31 on display.

## FIELD TRIP

Students from Rooms 205 and 206 at the elementary/middle school had a wonderful time on their recent field trip to Countryside Farms in Lowellville. With perfect fall weather and plenty of hands-on learning experiences, the day was filled with fun, exploration, and lasting memories. Thank you to our staff and chaperones for helping make this trip such a success!

## PRESCHOOL SEASONS ROOM

Our preschool's new Seasons Room is celebrating fall with purposeful, hands-on learning. Students are creating simple flower arrangements, exploring a farm-animal sensory station, and practicing classroom skills like sweeping leaves. The space also supports Occupational and Speech Therapy, reinforcing fine-motor skills, language, and independence.
